

ERECT BARRIERS AGAINST RAID IN DOWNING STREET

LONDON, Nov. 27.—The erection of barriers eight feet high, which will exclude the public from Downing street and adjacent Charles street, was begun last night, with instructions that the work should be continued until it was completed. Both streets lead from Whitehall to the group of government departmental offices, including the foreign office and the India office, and also the official residences of Premier Lloyd George and Andrew Bonar Law, the government leader in the house of commons.

The barriers are to be of a substantial character, foundations having been dug to receive them. Gates wide enough to admit an automobile are to be provided for in the barriers.

At the same time the light barriers raised at the other ends of the two streets to check the pressure of the crowds on the occasion of the unveiling of the cenotaph for the men killed in the war are being strengthened.

Nothing has been announced publicly regarding the unusual precautions, which are assumed in some quarters, to indicate that the government has reason to expect an attack on the centers of government from quarters which at present can only be surmised.—*Calgary Herald.*

RED CROSS NOTES

Organization of first-aid classes for the benefit of the members of the outlying communities has been undertaken by the Grande Prairie Branch of the Red Cross Society, which was established this summer and already is proving one of the most active and energetic of the branches in the northern country. Bear Lake, Grande Prairie municipality, Valhalla, Beaver Lodge and Beanson have been asked by Miss Rose Devlin, Assistant Secretary for the Grande Prairie Branch to consider the matter of sending five men from representative sections of each district to a series of lectures to be held in the slack season. Probably in January or February.

Miss A. E. Loney of the Grande Prairie Branch has become Junior Secretary. Writing to Mrs. C. B. Waagen, Vice-President and Honorary Secretary of the Provincial Division, Miss Jean Crosbie, Secretary for the branch, stated that the question of ambulance accommodation for outlying districts is under consideration. Beaver Lodge is willing to provide the necessary accommodation, and Kleskun and Valhalla are considering the matter. The Junior Branch is offering prizes for the best essay on the peace time policy of the Red Cross for competition among school children.

Farmers of the country in the vicinity of the Red Cross hospital established this year at Altario, have promised to provide the hospital with the winter's supply of vegetables and most of the meat, according to a letter received yesterday from Miss Ada L. Law, to nurse in charge. The Women's Institute has already assisted in providing supplies, and a hospital bazaar is to be held in December.

"COMING EVENTS CAST THEIR SHADOWS BEFORE"

MACLEOD AGRICULTURAL SOCIETY ANNUAL MEETING

The annual meeting will be held on Saturday, December 11th in the Town Hall at 2 p.m. prompt.

All the members are specially requested to be present, and all farmers and others who are interested in the welfare and advancement of the Society, and of agriculture in this district, are cordially invited to attend this meeting. Young men are specially invited.

H. Mackintosh, President
R. J. E. Gardiner, Sec'y.

MACLEOD BRANCH G. W. V. A. GENERAL MEETING

A general meeting of the Macleod branch of the G.W.V.A. will be held on Sunday, Dec. 19th, for the purpose of nominating local officers for the ensuing year and for the settling up of last year's business. Every member should make an extra effort to attend this meeting.

Annual meeting January 9th, 1921.
(Sgd.) C. P. McGLADDERY,
39-3t Secretary.

HOSPITAL AID DANCE AT RATHWELL

A dance will be given at Rathwell School House on Friday, December 3rd, commencing at 8 o'clock in the evening. Good music and good floor management. Proceeds in aid of Macleod Hospital. Gents \$1.00, ladies free. Everybody come.

MACLEOD CURLING CLUB

The General Meeting of the Macleod Curling Club will be held in the Town Hall on Friday, the 3rd December, 1920 at 8 p.m.

D. G. MacKenzie,
F. N. Morris,
Hon. Secretaries.

SCHOOL LANDS SALE WAS A GREAT SUCCESS

All provincial records for realty auctions were shattered at the sale of school lands held at Donalda Saturday when under Dominion auspices 21,660 acres of these reserved farming areas were disposed of to the highest bidders during the one-day sale, the total amount realized reaching \$435,000.00. The highest price per acre was \$20.00, which also constitutes a record, the sale at Wetaskiwin holding the mark for one day previously with a top quotation of \$53.00 per acre.

The four sales at Viking, Leduc, Wetaskiwin and Donalda have resulted in over \$1,215,000.00 being obtained from the placing of these school lands on the market. The result of the sales is particularly gratifying to Hon. Geo. P. Smith, Minister of Education, upon whose application a few weeks ago the Dominion authorities consented to offer the lands for sale. Although still confined to his home, in consequence of the injury sustained recently in an auto smash, Mr. Smith has followed the sales with keen interest and now feels justified in pressing for the sale throughout the Province at the present time.

When the Minister of Education was at Ottawa a short time ago and asked to have the school lands thrown open for sale, grain prices were still satisfactory in the main and there was no indication of the extreme slump which has since taken place, particularly in the price of oats. However, in spite of the drop in prices to an alarmingly low level the sales of land in the north have been beyond even the expectations of the officials and it now seems probable that Alberta's revenue for educational purposes will be increased another \$150,000.00 annually when all the fourteen sales have been held in the Province as scheduled. The six sales in this part of the Province have reached about \$1,500,000.00, those of Consort and Eckville being held last week.

Hon. Mr. Smith points out that the receipts of the sales now taking place will be placed to the credit of the Province and that the Department of Education will receive approximately an annual return of five per cent net on such principal funds. The needs of educational work in the Province are now so urgent and so far reaching that the Minister of Education felt that a bulk of the school lands lying idle in the Province should be made to produce revenue to assist in carrying out this work.

Last year the provincial estimates provided for an expected revenue of \$700,000.00 from the federal treasury as interest on principal moneys, and other sources, from the sale of school lands which have taken place previously in the Province. The success of the sales this fall will augment materially this revenue within another twelve months. Purchasers of school lands at these auction sales are required to pay down one tenth of the price at the time of sale, the balance to be paid in nine annual instalments with interest at the rate of six per cent.

WHEAT POOL ENDORSED BY U.G.G.

To undertake a plan of co-operative marketing of grain with a board formed for the purpose was thoroughly endorsed on Friday afternoon by delegates of the U.G.G., representing more than 36,000 shareholders in the three prairie provinces. The proposal has been drafted by a committee of the Canadian Council of Agriculture, consisting of H. W. Wood, president of the U.F.A., and a member of the Canadian Wheat Board, which handled the crop of 1919; F. W. Riddell, president of the Saskatchewan Co-operative Elevator, and J. H. Murray, assistant general manager of the U.G.G.

Most of the 348 delegates present in Calgary were at the meeting on Friday afternoon when the following resolution was moved by J. C. Buckley, of Gleichen, and seconded by W. Harvey, of Rapid City, Man. the resolution was couched in the following terms:

"Resolved, that we the delegates of the United Grain Growers, are heartily in accord with the proposal of the Canadian Council of Agriculture to undertake a plan of co-operative marketing of our grain, and that we recommend our directors to assist in the formation of a board for that purpose."

Commercial Extension
The shareholders of the U. G. G. at Friday's meeting, adopted a resolution instructing the board of directors to continue to make careful investigation into the possibilities of organizing a wholesale and buying agency for the supplying of all commodities to co-operative societies throughout the eastern provinces.—*Lethbridge Herald.*

BRIGHT BOY

"And now, Johnny," said the teacher, "can you tell me what is raised in Mexico?"
"Aw, go on," replied the bright boy.
"I know what you want me to say but ma told me I shouldn't talk rough."

SQUAW OF FAMOUS BLOOD CHIEF PASSES AWAY

LETHBRIDGE, Nov. 26.—The death at the Galt hospital here, of the Indian squaw, Mrs. Red Crow, removes an association linked with the fame of Red Crow, a renowned warrior chief of the Blood Indians, whose name is still regarded with reverence, in that it was passed on to the Prince of Wales when, in his visit to Lethbridge, he was created a chief of the Bloods by the Indians at that time assembled in the city. The late Mrs. Crow was the fourth wife of the famous Red Crow, who died some 20 years ago.

A Fighting Warrior
Red Crow was the last of the fighting warriors of the Bloods, and made a name for himself in the past he took in the tribal feuds of the old days between the Bloods, the Crees and the Grosventers of Montana.

He figured in the famous fight in the vicinity where now Lethbridge stands, when the Bloods, suffering from a slaughter by the Crees, who took advantage of an epidemic of smallpox among the former tribe, rallied near Kipp, under the leadership of Chief Jerry Potts, descended on the Crees, and practically annihilated the once victorious tribe of warriors.

Blood Peace Chief

Chief Red Crow was the first of the peace chiefs of the Bloods. He received his status and a medal from Queen Victoria. He bore the reputation among the Indians of being a benevolent and wise chief. He left behind him considerable wealth in cattle, horses and land. In spite of his many marriages he left no issue and his name is carried on by an adopted son who goes by the name of Frank Red Crow.—*Calgary Herald.*

INCREASED BAIL FOR SPRACKLIN

WINDSOR, Ont., Nov. 25.—Rev. J. O. L. Spracklin, charged with having unlawfully slain Beverly Trumble, owner of the Chapin House, during the course of a raid by the pastor-inspector and his squad of prohibition officers, appeared in the police court here this morning and was remanded for preliminary hearing on December 2.

This action was decided upon by agreement of all parties, to enable the magistrate to read the evidence taken at the coroner's inquest, which will be read into the records in the court when it is decided to hold a new trial.

Spracklin's bail was increased from \$10,000 to \$20,000, of which he will furnish a personal surety of \$10,000.—*Calgary Herald.*

THIRD OF GERMANY TO EMIGRATE WEST

(Special Cable to Chicago News.)
BERLIN, Nov. 17.—Twenty million people, or one-third of the population of Germany, will emigrate to North and South America within the next few years because the fatherland is no longer large enough to provide a living for them, according to Senator Petersen, head of the German democratic party.

"A large proportion of the population of Germany must emigrate or go under," said Senator Petersen, "because our industrial machinery has gone to pieces. This is one of the unfortunate results of the war."

Seek Homes in Argentina

Every week thousands of German families take ship for Brazil and the Argentine to seek new homes. Numerous organizations, financed principally by wealthy Germans of nationalist leanings, assist the emigrants with money to help pay their steamer passage, which now costs about three times as much as before the war. The object of these organizations is to strengthen the already large German colonies in those countries in the hope that sooner or later Germany will be on a basis of close friendship with Latin America and thus be less dependent upon allied countries and the United States financially and commercially.

Wait for Peace With United States

Thousands of other families, however, are waiting for peace between Germany and the United States and a modification of the restrictions that now make it almost impossible for Germans to get passports vised for emigration to the States. There are many skilled laborers who fear an outbreak of bolshevism here. They are anxious to get away before it comes and long to go to the United States. Recent dispatches that bills proposing severe restrictions on immigration from Europe will be introduced in congress have caused great disappointment and nervousness among those desiring to emigrate.—*Lethbridge Herald.*

Smith Form-a-Trucks are becoming quite the thing for grain hauling. H. H. Griffiths, 15 miles south of Macleod is making 3 trips with wheat daily with one of these transformed automobile trucks. Also W. E. Young who lately finished threshing between 17 and 18 thousand bushels of crop, and who lives 18 miles south, is busy hauling in grain with one of these rigs. Local agents—Dilatash & White.

DOUGHTY REVEALS HIDING PLACE OF MISSING BONDS

TORONTO, Nov. 29.—John Doughty who was chased across the continent and was recently arrested in Oregon City, in connection with the mysterious disappearance a year ago of Ambrose J. Small, missing theatrical magnate, today visited the home of his sister, Mrs. Lovatt, in this city, and revealed there to police authorities who had accompanied him, the hiding place of \$100,000 worth of Canadian Victory bonds, which were missing. These bonds have been handed over to the police authorities in secret. Recent reports from Oregon said that it had been intimated that no bonds had been deposited in case of a trust company in Chicago.

Later Doughty was brought in the police court and placed in the prisoner's dock.

Doughty stood up and bowed to the magistrate when the clerk called his name. The two charges, one of theft of the \$100,000 in Victory bonds, the property of Ambrose J. Small, and the other of conspiracy to kidnap Ambrose Small, were read. Doughty made no reply, but it was announced that his lawyers, I. F. Hellmuth, K.C., and Miss Clara Brett Martin, desired a week's remand.

The magistrate granted this without bail. Miss Martin intimated that the defendant would be prepared to furnish bail, but Crown Attorney Corley did not acquiesce and the magistrate sent Doughty back to the cells.—*Calgary Herald.*

SIXTEEN POLICE CADETS AMBUSHED AND KILLED

MACROOM, County Cork, Nov. 29.—Fifteen auxiliary police cadets were killed and one cadet mortally wounded as the result of an ambush by about 70 and 100 men near Kilmichael, southwest of here, last evening. Another of the cadets is missing.

The cadets, under District Inspector Crane, were patrolling in two lorries when they were ambushed.—*Calgary Herald.*

KAISER'S SALARY STIRS ALLIES

LONDON, England, Nov. 20.—The British government considers with lively sympathy the decision of the French government thoroughly to investigate the question of how much money the former kaiser is drawing from Germany. Information in the hands of certain members of the house of commons indicates that the sum is extremely large. It is declared that the ex-emperor, as "king of Prussia," has received about \$5,000,000, normally \$25,000,000 in the course of the present year.

This figure may or may not be correct. Inquiries are being made by the British ambassador in Berlin.

In Interest of Devastated Area
If it should prove true that the available German revenues are undergoing depletion in this way and to the extent alleged, the British and French governments are expected to endeavor to stop it in the interest of the devastated countries.

Members of parliament show intense indignation over these reports. They declare that the government will have no peace until it discovers the truth and takes such action as the facts warrant. All the indications are that the former kaiser is living sumptuously in Holland with an imposing retinue of attendants.—*Lethbridge Herald.*

LETHBRIDGE NORTHERN BONDS MAY SELL IN JANUARY

EDMONTON, Dec. 1.—The Lethbridge Northern Irrigation bonds are nearly ready to put on the market. The form in which they are to be offered has been finally passed by Hon. C. R. Mitchell, who as provincial treasurer is empowered by the act to approve or disapprove of all details connected with the financing of the scheme. A draft of the announcement of the issue and invitation to bond buyers to tender on it is now being prepared and will be forwarded to the trustees of the district this week.

The method to be followed in selling the bonds is to invite tenders from a large number of reputable bond houses, and this will be done by the trustees board over their own name but in accordance with the terms approved by the provincial treasurer.

While the irrigation debentures will thus be ready almost at once for marketing, it is not expected that the sale will be actually put through before the new year. Even should the board of trustees send out its invitation forthwith, the holiday season will have to be reckoned with, and it is thought here that a date as early as possible after January 1st will be set for opening the tenders. The amount of the issue is placed at the figure named in the district vote, which was \$5,400,000, the estimated cost of the project plus a margin to carry it for the first year or two.

The British War Office states that three million war medals have now been distributed to individuals, or sent to Record Offices at home, and to the overseas Dominion and colonies for distribution.

OLIVER GOV'T IS RETURNED IN BRITISH COLUMBIA

VANCOUVER, Dec. 2.—(Canadian Press).—The Oliver government has been returned to office but with a greatly reduced majority in the British Columbia elections held yesterday. Returns received up to an early hour this morning assure the election of 24 Liberals out of a house of 47 members. The Conservatives are conceded 15 seats, while the balance of the seats are distributed among Independent Liberals, Independents, and Labor. There are two doubtful seats, which the Liberals claim they will win. It is regarded as certain that the government will have a safe working majority.

May Defeat Bowser

The Liberals are claiming Fort George where Major H. G. Perry is leading his opponents. Final Returns are yet to be received from Atlin. Liberals are also expecting to wrest the sixth Vancouver seat from Hon. W. J. Bowser, Conservative leader on the absentee vote. He is leading J. P. Dougherty, Liberal, by a few hundred.

Oliver Wins Two

Premier Oliver himself led the van of victory by carrying both Delta riding, his home constituency and in Victoria, where he was returned at the head of the list.

All the ministers carried their constituencies, although Hon. Dr. King, minister of public works experienced a close contest in Cranbrook where Cavan, Conservative, is only a few votes behind the minister.

B.C. Results by Constituencies

Alberni—Brig. Gen. Money (Soldier-farmer).
Atlin—No returns.

SCHOOL LAND SALE AT MACLEOD REAL SUCCESS

The largest sale of school lands that has so far been held was put on in Macleod today, November 24th, when the government auctioneer sold land to the value of \$101,831.50. The cash payment made was \$10,183.15 on 66 parcels. The majority of these were sold at the upset price, ranging from \$7.00 per acre upwards. Frank A. Collins was delighted with the success of the sale. He said he was told it was not much use putting on the sale here, "but," he said, "it's the best yet, and our report of Macleod will be very good." The parcels consist of farm lands, grazing lands, hay lands and all other kinds. One buyer bought only odd parts of sections with the intention of holding for future higher prices.

Many men from the surrounding points were visitors to Macleod for the sale of school lands, which took place on Wednesday, Nov. 24th.

Frank A. Collins and his staff leave for Cardston, where the next sale of school lands will be held, on Friday, November 26th.

ACCIDENTAL DEATH OF R.C.M.P. CONSTABLE AT LETHBRIDGE

(From Friday's 3 O'clock Edition of Lethbridge Herald)

Lying with blood streaming from his side Romeo Bariteau, 21 years, a native of Montreal, and a member of the R. C. M. P., for the past two years in Lethbridge, was found at noon today in the barracks. He died three-quarters of an hour after being found.

According to the story at the barracks Bariteau left the mess room in the usual manner and proceeded to the barracks. Shortly afterward a mounty coming from the stables heard a shot and rushed to the barracks. Then the wounded man was found.

He was lying on the floor with his feet about twenty-four inches from a box. In this box the constables keep their revolvers and one revolver was hanging part way out. One chamber had been discharged. Whether or not Bariteau had been endeavoring to pull this revolver out of the box and accidentally discharged it is what the jury this afternoon will have to decide.

Bariteau will be remembered, is the constable who was recently stabbed by Eagleson, while he was accompanying him home.

"That the deceased, Joseph Romeo Bariteau, came to his death accidentally by a loaded gun in his own hand, taken from his trunk; and that, no blame is attached to anybody," was the verdict of the coroner's jury held in the mess room of the barracks at three o'clock on Friday afternoon. The inquest was held by Coroner Humphries, with the following jury: Hugh Taylor (foreman), Wm. Pilling, Wm. Hyssop, Robert McPherson, Thomas Cowan and Bernard F. De Manby.

The inquest followed the finding of the late constable of the R.C.M.P. lying in a pool of blood, at a quarter past twelve on Friday, in barracks room No. 3, which he occupied as sleeping quarters with others of the force. He expired three-quarters of an hour after. The body when found was lying face upwards, with the feet towards the trunk of the deceased about a foot and a half away. His tunic was opened, and blood was flowing from a wound on the right side lying on the tray of the trunk, which was open, was a .45 police revolver with the butt end projecting over the side of the tray, and with an empty cartridge. The shirt and the skin were burnt, showing that the bullet had entered at close quarters. It passed right through the body, lodging in the wall of the room.

RAILWAY RATE ON CREAM TO BE SECOND CLASS

OTTAWA, Nov. 30.—The National Dairy Council of Canada has been successful in its application before the railway board for an order to compel railway companies to carry pasteurized cream at the second-class rate instead of the first-class rate. The railway companies in some cases have been classifying this article under the classification of "cream, condensed or otherwise manufactured or prepared," which carries the first-class rate, the contention being that the pasteurized cream is a preparation of some kind.

Chief Commissioner Carvell finds, however, that the pasteurization simply means the putting of cream through a heating and cooling process which exterminates any bacteria that might be in the article, and that, as it is not a manufactured article, it is entitled to the second-class rate.—*Lethbridge Herald.*

Stiff Joints Sore Muscles

Smoothed Out By Hamlin's
Wizard Oil

Soreness and stiffness resulting
from unaccustomed use of muscles
or too much exercise, such as ten-
nis, baseball, golf, hand-ball, etc.,
give way quickly to the soothing
effect of Hamlin's Wizard Oil. It
penetrates fast, drives out the sore-
ness, and limbers up stiff, aching
joints and muscles.

Hamlin's Wizard Oil is a good depend-
able preparation to have in the medicine
chest for first aid and when the doctor
may be far away. It is an absolutely
reliable antiseptic application for cuts,
burns, bites and stings. For aches and
bruises heal rapidly under its soothing,
penetrating qualities. Keep it on hand.
Generous size bottle 25c.

If you are troubled with constipation
or sick headache try Hamlin's Wizard
Liver Whips. Just pleasant little pink
bills at druggists for 25c.

Palatine Insurance Company, Van-
couver, was a business caller on the
K. A. Y. Realty Tuesday.

G. J. Kinnaird, of Edmonton, was
in town during the past week audit-
ing the accounts of the Town Muni-
cipality of Macleod, leaving for his
home in the north on Tuesday.

Mr. and Mrs. H. Le Vasseur have
returned to Macleod from British
Columbia and will in future reside
here. "Hank" as a star forward will
be a great acquisition to the local
hockey team.

Mr. and Mrs. Rod Sweet, formerly
resident here, and latterly of Van-
couver, returned to Macleod last Fri-
day night, and it is rumored that Mr.
Sweet is going into business here and
so will be her permanently.

C. E. H. Brown, late of the Bank
of Commerce staff in Lethbridge,
now transferred to Irma, spent a few
days this week with the home folks
Mr. and Mrs. E. Forster Brown, en-
route to his new appointment.

Mr. Camblin, of the Canadian Bible
Society, visited Macleod this week
and gave addresses in the interest of
the society's work, in the Methodist
Church in the morning and the Pres-
byterian Church in the evening.

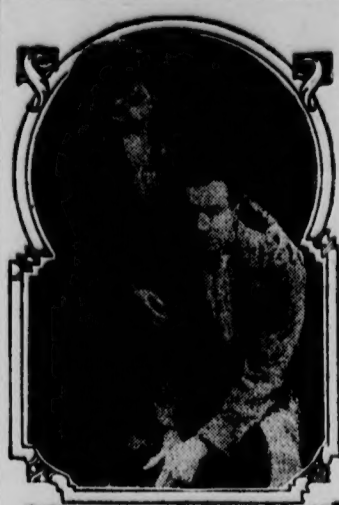

J. A. White, of the firm of Dilat-
tush & White, has been appointed
provincial manager for the Canadian
Avery Co., with headquarters at Cal-
gary. Mr. White left Tuesday for
Calgary to assume his new duties
and was accompanied by Mrs. White.

J. S. Thornley, late of The Times
staff, has taken a position on a
Cranbrook paper, leaving for that
place last Wednesday, and later in
the week Mrs. Thornley joined her
husband at their British Columbia
home.

The Next-of-Kin dance held last
Tuesday evening was well attended
and was a very enjoyable affair. The
luncheon served is said to have been
excellent, reflecting great credit on
the culinary arts of the ladies. The
affair netted the memorial fund \$95.
The committee in charge wish to ex-
press thanks to the ladies who don-
ated the refreshments and to the Em-
press Theater and The Times for free
advertising.

Little Violet Barnett entertained a
number of her young friends on Tues-
day, Nov. 30th, the occasion being
her sixth birthday. The guest room
and dining table was decorated in
violet coloring effects and with a pro-
fusion of violet bouquets. The young
folks enjoyed themselves immensely
with games, etc. Those present
were: Teddy and Alinson Seymour,
Jack McDonald, Dorothy and Buddy
Embley, May, Mona and David Grier,
Gwendolyn and Jean Hilliard, Elaine
Poarch, Norvill Marks, Dorothy Mil-
burn, and Violet herself, makes just
fourteen to avoid unlucky thirteen.

On Monday afternoon Mrs. E. P.
McNeill was hostess at a bridge party.
The guests were welcomed by Mrs.
McNeill and her mother, Mrs. Ives.
At the tea hour Miss Margaret Mc-
Neill, Miss MacDuff and Miss Root
assisted. The prizes were won by
Mrs. Young and Mrs. Lindsay. Among
those present were Mrs. Martin, Mrs.
W. P. Lindsay, Mrs. J. W. McDonald,
Mrs. Grady, Mrs. Young, Mrs. D. G.
Mackenzie, Mrs. Gardiner, Mrs. A. D.

Davis, Mrs. Atkins, Mrs. Small, Mrs.
Becher and Miss Margaret Macdonald.

The Rev. W. J. Merrick, who was
lately appointed Rural Dean of Mac-
leod, left for Calgary on Wednesday
to attend a Diocesan Committee meet-
ing.

Mrs. Palmer S. Lindsay (a sister
of Mr. Ferguson) who has been the
guest of Mr. and Mrs. A. D. Ferguson
for a short time, returned on Tuesday
last to her home in Winnipeg.

Some interesting facts regarding
fox farming are forthcoming from the
Veterinary Director General, Dr. Tor-
rance. In an article in The Agricul-
tural Gazette of Canada for November
he tells us that the main difficulty
connected with the raising of foxes in
captivity is the protecting of them
from disease. It is noticeable that
the female instead of giving birth to
a litter of four or five at a time, as
she does when free, rarely produces
more than two, the average for the
farms in Prince Edward Island being
at the rate of one and a half. In-
dividual fox ranchers, however, by
care and improved methods do suc-
ceed in securing an increase of three
or even four per pair. With a view to
making this success more general, un-
der the direction of Dr. Torrance, re-
search work has been undertaken.
Land and equipment have been ac-
quired, two scientific experts from the
Health of Animals Branch employed,
six pairs of foxes from the Island
ranches furnished, and a small labora-
tory fitted up for the studying of the
diseases and parasites that affect the
animals.

Don't Use Drugs for Constipation

Bathe Internally—the One Natural
Way.

Did you ever know of any person
who was permanently cured of consti-
pation by taking drugs of any kind?
Drugs simply force nature, and larger
doses are required from time to time
until the trouble becomes chronic.

Internal bathing with the J. B. L.
Cascade is the only permanent relief
from Constipation. It keeps the
Colon, or large lower intestine, free
from all accumulation. Soon the sys-
tem performs its regular functions,
and there is no further trouble.

Mr. F. Babin, Proprietor Alexan-
dra Hotel, Ottawa, writes: "The J.
B. L. Cascade has made a new man of
me. I would not sell it for all the
money in this world if I could not get
another. Through my recommenda-
tion I know of a number of my friends
who have been using it with the same
satisfaction. For people troubled with
Constipation, I say it is a godsend,
and can heartily recommend it."

The J. B. L. Cascade is the only
perfect appliance for Internal Bath-
ing ever devised. It is endorsed by
over half a million enthusiastic users.
Ask to have it explained to you at
A. D. Ferguson's, Druggist, Macleod
Alta., or write for booklet to Tyrrell's
Hygienic Institute, 163 College St.,
Toronto.

WHY SASKATCHEWAN BELIEVES IN BIRD PROTECTION

(By Hon. Duncan Marshall, The Saskatchewan Department of Agriculture is pleased to have this opportunity of reassuring the people of Canada of its interest in all matters pertaining to the conservation of bird life, more especially as they relate to the promotion of Canada's first industry. All too often when referring to our natural resources, we ignore our wild life heritage, and yet, in the final analysis, it is doubtful whether any other natural resource, at this stage of Saskatchewan's history, has yielded so much in actual cash value as the birds and animals of our province.

Were it not for the activities of our bird friends, which invade our province during the season when insect pests are found in greatest numbers, our farm crops would be seriously damaged, and in many cases entirely destroyed, as actually happened in many parts of southern Saskatchewan during the grasshopper outbreak last summer. More than one intimation has been received of the value of birds during this plague. For example, a farmer, near Rouleau, reported that his crop was badly infested. An official of the department was instructed to make an investigation of the complaint, but upon arrival at the farm he was informed that his services were not required for the "grulls had cleaned them up." Unfortunately our bird population is considerably below normal, otherwise these outbreaks would not likely develop to such serious proportions. We should recognize these great losses of valuable food supplies as signals of imminent danger and use them as stimuli for further effort towards maintaining nature's balance for the control of such pests.

Special emphasis was given to the subject of bird protection on the "Better Farming Train" last summer. Lantern slides of the common birds of the farm were shown to over ten thousand school children. At each meeting the boys and girls were entertainingly informed of the habits of the birds, and in order that they should carry away with them some lasting impression of the importance of bird protection, they were asked to memorize such short sentences as "Insects eat Crops," "Birds eat Insects," "Save the Birds." Which they always repeated vociferously in unison before dismissal. Next year we

hope to introduce motion pictures of Saskatchewan bird life, dealing more particularly with some of the non-game birds protected under the migratory Birds Convention Act.

Public sentiment must play a large part in the campaign for better protection of our feathered friends and we believe that the best place to develop such a sentiment is among the boys and girls of school age, and it is now provided in this year's course of study that the pupils of grade four, five and six know something about the laws that give protection to wild birds and animals.

With the ratification of the treaty between Great Britain and the United States for the protection of migratory birds that pass between Canada and the United States twice each year, there was consummated the most advanced legal protection ever accorded to migratory birds. Compliance with the terms of this solemn agreement will undoubtedly bring about results that no other single effort could hope to accomplish. I am pleased to state that the Saskatchewan Game Laws were so nearly in accord with the terms of the treaty that it was only necessary to make one or two minor changes to our Game Act in order to have it conform with the terms of this international document.

A SERIES OF TALKS ON MUSIC

By Prof. C. C. Laughier, Mus. Bac. (Bowmanville.)

The name "Harp" is attached to so many of its kind and all the instruments are plucked strings that it is advisable to mention some. The Irish harp is an instrument of the lyre family but having more strings and is only used to play simple melodies and to accompany another instrument. The harp-lute was an instrument of the guitar kind and an improvement was made by Edward Light, who produced this instrument with 12 gut strings, the finger-board having frets on it and a thumb key when depressed was to adjust the pitch similar to the modern harp and its pedals.

The harp is one of the most ancient and universal of stringed instruments, and possessed a larger number of strings than the lyre. The strings are plucked with the fingers. The triangular form of the present harp is very similar to that of the Egyptian and Assyrian harps depicted on the ancient monuments. The shape gives to us the idea of it being derived from the bow of an archer, for we find the farther back we go that these instruments are bow-like in shape.

We read that the paintings dated from the thirteenth century, B. C., have been discovered at the entrance of the tomb of Thebes, which depict two priests, one at each side of the portal, playing upon harps, these instruments are taller than the players.

We now come to the more modern times and find the harp now tuned in semitones and has a double row of strings.

The Welsh harp has three rows of strings and is sometimes called the triple harp, the gut strings numbering 98. The outer rows produce the natural tones and the centre row gave the sharps and flats.

The real modern harp has a double action invented by Sebastian Erard about 1810. The modern harp is a graceful orchestral instrument possessing a triangular outline. It has a straight slender pillar, a slanting sounding box and a carved neck connecting the two, both pillar and sounding box rise from a circular base in which eight pedals are arranged in a semi-circle, the compass of this instrument is over six octaves. There is a limit to the technique on

this instrument as the scales or passages of a chromatic order are almost impossible and even when practicable is ineffective. Simple chords and arpeggios are the most telling on this instrument. With but few exceptions, what music is suitable for the piano is suitable for the harp.

In the modern double action harp by means of the pedal the strings may be raised two semi-tones, affording great facility for modulations.

The strings are arranged in diatonic scale and tuned in flats, the normal scale being E flat. Each lever or pedal controls two sets of disc, from each disc project two pins, the strings pass between the pins, but the pressing the pedal half way down, presses the pin against the string, thereby shortening it or making it one semi-tone higher, by pressing the pedal entirely down presses the second pin against the string shortening it yet another semitone. The seven pedals effect the strings but the eighth governs the damper. The voice of the harp possesses great sweetness as the strings are not plucked sharply, but gives a sweeping motion, producing a stately effect.

Reach & Co. ask their customers to read the notice in the advertising column. It plainly says cash, trade or monthly account. Those of the C. P. Railway will not be affected whether they pay on the fifteenth or the first. If anyone cannot pay promptly at the end of the month it then ceases to be a cash transaction and will not be increased by further purchases till it is paid. The Adv. in our local paper will explain the necessity of our change of credit. Those who pay up promptly when their bill is due will not be affected in the least. We offer this explanation as so many have misinterpreted the notice, thinking their purchases meant spot cash.

NEW LAID EGGS AND HOW TO GET THEM

Getting new laid eggs is "as simple as falling off a log"—providing—
First—That you have early hatched pullets.

Second—That these pullets are of a good laying strain.
Third—That they are housed and handled properly.

Time of Hatching

Birds of the type of Rocks or Wyandottes are best hatched between the 15th of March and the 15th of May; birds of the Leghorn type a couple of weeks later. This does not mean that good results cannot be obtained by hatching either before or after the dates mentioned. They can, but it requires special treatment; the early hatched birds are fed to bring them along slowly while those hatched later are forced for development. Moist earth, with lots of insect life and succulent green feed, goes a long way towards early development.

Strains

If you are looking for eggs do not select a strain simply because it wins a lot of prizes at exhibitions. Look rather to what it can do in the laying pens. Select pullets as far as possible sired by a male whose dam is known as a heavy producer.

Handling the Pullets

From the time of hatching the pullets should be brought along so that they will not receive any setback. They should be put into their laying houses before they are ready to lay and careful attention paid to their feeding, so that they will not receive a check.

Winter Quarters

The house—Elaborate houses are not necessary. The cheaper the house the better, provided it is light, well ventilated, dry and free from draughts. When putting the pullets into winter quarters they should be carefully handled and any showing lack of constitution should be culled. Each bird should be treated for lice by rubbing a little blue ointment, a piece about the size of a small pea—below the vent and under the wings. As the birds have been taking lots of exercise while on range, it is necessary to see that they do not lack in this respect when put into their new quarters. Supply a good, deep litter and make them work for all the whole grain feed. While green feed is always necessary, it is more so at this time than at any other, as the change from free range to close quarters is

great.

Feeding Pullets

Keep a hopper of dry mash before the flock at all times. A good mash may be made as follows:—Bran middlings, cornmeal, finely ground oats and beef meal, equal parts.

In the morning, feed scratch grain in the litter—cracked corn, wheat and oats, equal parts by measure, or some simpler mixture. This should be fed sparingly, just about a pint to 25 birds will be sufficient. At noon give green feed, sprouted oats, mangels or something similar; a little scratch grain may be scattered to start the birds to work.

A moist mash may be fed either at noon or in the evening, whichever is more convenient. A considerable proportion of this moist mash should be greens. At night the flock should be given a full feed of scratch grain. The birds should have grit, oyster shell, charcoal and clean water before them at all times. If milk can be had mix the moist mash with it, also supply it as drink; if milk is not available, keep a hopper of beef scrap before the flock.

Artificial Light

Experience has shown that by using artificial light the production may be greatly increased at certain periods, that is, in pullets hatched at the times previously mentioned, where the peak of production would normally come in February, March and April, by putting them under artificial light to lengthen the day two or three hours, the peak of production may be advanced to December, or whenever it is desired. So also, by this method, may late-hatched pullets and old hens be brought to production sooner than by allowing them to come on normally.

GEO. ROBERTSON,
Poultry Husbandman.

**DISTRICT NO. 7 I.O.O.F.
MET AT CLARESHOLM**

On Monday, Nov. 29th, a meeting of District No. 7 I.O.O.F., was held in Clareholm at 2 o'clock in the afternoon. At 8 p.m. the evening session was opened and a demonstration of the first degree given, after which Bro. Noble, Grand Master of Alberta and Bro. Rogers, of Calgary, Special Deputy Grand Master, gave very entertaining addresses. A chicken supper was served at 10:30 p.m. to which about 80 brothers sat down.

P.G.—R. W. Russel and P.G.—R. J. E. Gardiner attended as delegates, and were accompanied by P.G. Wallace Stewart, Brother H. St. George and Bro. G. L. Pollard.

P.G. Wallace Stewart was honored by being elected as District Deputy Grand Master for 1921.

The Macleod Brothers were given a good reception and sure had an enjoyable time.

**ALEX McDONALD
MADE PROFITABLE
TRIP TO CHICAGO**

Alex McDonald made a net profit of \$300.00 over local prices on 24 head of fat cattle marketed in Chicago within the past week. Mr. McDonald returned on Wednesday morning and is naturally pleased with the successful issue of his trip.

Mr. McDonald's stock was divided into graduation lots on being placed on

market and the highest grade lot brought 7½¢ per lb. live. "Of course," to quote Mr. McDonald, "the exchange at 13, figures to some extent in the profits."

A good profit can be taken at Chicago over the Alberta market if the stock is young steers and properly fattened—females, aged or poorly fattened stock is almost certain to stand a loss.

The American market is being flooded with Canadian stock and the American producers are dissatisfied with the present conditions of an open market that by reason of Canadian competition is cutting their profits \$1 to \$2 per hundred on live stock. American stock yards officials state that duty will be imposed on Canadian stock at an early date.

CREATING A FUND FOR IRRIGATION DEVELOPMENT

Montana people are setting about in a business-like way to solve their irrigation problems. Their chief problem at present like that in many parts of Western Canada is one of funds. This fall the voters of the State will have an opportunity to vote their approval of a proposal to sell twenty million dollars worth of bonds to create a fund which shall be used to develop irrigation in the State.

"Briefly," says the Montana Farmer, "the bill provides that the state shall proceed to sell \$20,000,000 worth of six per cent. bonds, the proceeds from such sale to establish the Montana Irrigation Development fund which thus becomes a fiscal agency to of private irrigation districts. The state assumes control under this bill over such private districts. Irrigation bonds are to be resold by the state while thus becomes a fiscal agency to buy and re-sell bonds, and to collect payments on interest and principal through existing tax collecting agencies. This insures prompt payment of the interest and principal, and places the faith and credit of the state back of the bonds issued of private irrigation districts without at the same time making the state the final holder of irrigation bonds. Such regulation over the private irrigation districts will be maintained by the state as will insure the completion of the project with the money raised by the sale of the bonds. A tax is provided which shall create a sinking fund to pay interest and principal on the bonds which the state issues, and when the twenty million dollars' issue is finally paid off, and the need for its further investment in Montana ceases, a provision is made that it shall be used among the school districts of the state as a permanent school endowment from which the income shall be divided on a per capita basis. The control of the irrigation funds rests with the state Board of Examiners, and the supervision of the irrigation districts whose bonds are bought by the state is placed with the office of the state engineer."

It is believed likely that these irrigation bonds will be favorably considered both in town and in country. Farmers in this state have been hard hit during the past two or three years and the lesson of the value of water has been driven home to them.

MUSICAL RECITAL BY PUPILS OF MRS. KERR-SEYMOUR

On Friday Nov. 26th a most enjoyable evening was spent in the Odd-Fellows' Hall, the occasion being the annual musical recital of the pupils of Mrs. Kerr-Seymour, on whose invitation parents and friends gathered and listened to one of the best programs yet given in Macleod by those just mastering the intricacies of music.

Each number was rendered in astonishing correctness, and the perfect confidence of each pupil when taking his or her selection was particularly noticeable, showing the great care and close personal supervision of the teacher to the pupil in the work.

Mrs. Kerr-Seymour prepares her pupils for examination in connection with the Associated Board of London, England, and several of those taking part in the entertainment have passed examinations as prescribed by that board.

After the musical part of the evenings program was over a dainty tea was served when everyone congratulated Mrs. Seymour and the pupils on the splendid success of their efforts.

Dancing was later indulged in for a time by the young men and maidens and altogether a most enjoyable evening was spent by all present.

Miss Thiel and Mr. J. T. Doney kindly supplied the music for the dancing.

Programme

1. Duet - Concert Mazurka - Meyer-Helmund - Dorothy Embury and Lillian Andrews.
2. Quartette - Snowy Days - Irene Young, Gladys Cooney, J. Embury, F. Seymour.
3. Piano Solo - Happy Peasant - Schumann - J. D. Adams.
4. Piano solo - March Lilly Bells - Presser - Freddie Seymour.
5. Piano Solo - Enchanted Bells - Gurliitt - Miss Irene Young.
6. Song - In Music Land - Batchelor - Gladys Cooney.
7. Piano solo - Happiness - Sartorio - Lizzie Sanders.
8. Song - The Great Red Dawn - Sharpe - Winnie Pharo.
9. Piano solo - Gertrude's Dream - Beethoven - Marjorie Fleming.
10. Piano Solo - Sunset - Barth - Ivor Brooks.
11. Piano solo - Skating - Sartorio - Agnes Coxon.
12. Duet - Wind and Tide - Hewitt - Dorothy and Marjorie Dufour.
13. Piano solo - Spanish Waltz - Dana - Irene McCausland.
14. Piano solo - Hearts and Flowers - Lange - Isa Hart.
15. Piano solo - La Violette - Wanger - Dora Taylor.
16. Piano solo - A Summer Evening - McIntyre - Jack Fanett.
17. Duet - O'er Hill and Dale - Engelmann - Blossom and Frank Lyons.
18. Trio, violins and piano - Valse Lente - Rubini - Alma, Irene and Robert McCausland.
19. Piano solo - Song of the Creole - Blossom Lyons.

THE DUBLIN CARNAGE

The Editor of The Macleod Times.

Sir:—

In your paper of Nov. 25 you print an extract from the Lethbridge Herald under the heading "Dublin Scene of Awful Carnage." As this extract does not give all the details of the "awful carnage" of Nov. 21, I am sending you a cutting from the "Montreal Daily Star" of Nov. 22, giving particulars of the murder of fourteen British Officers on that day. After giving the official list of those killed and wounded the Star says:

"Captain MacLean and Messrs. Smith and Caldwell were attacked by a band of twelve men in a house in Northampton road. They were taken from their bedrooms to the top story of the house, where they were shot. Captain MacCormack was surprised while reading in bed. His wife was standing nearby. The captain was shot and killed despite the appeals of his wife.

"The men rushed to the room of Captain L. A. Wilde where four shots were fired. They left Wilde dead on the floor.

In Lower Baggot Street the doors to Captain Newbury's flat were forced open and raiders filled the room. Newbury flung off two attackers and leaped for a window, but a bullet stopped him and as the ten men departed the Captain's body hung limply over the ledge. His wife stood by horror-stricken and helpless.

"Mrs. Newbury said the men wore no disguises and that they appeared to be between twenty and thirty years of age. They made no search of her apartment.

"In Pembroke Street a gang met Major Dowling and Captain Price as they were leaving their bed rooms. They were shot as they stood in the doorway. Three other officers in the party were wounded.

"In Mount Street Lieutenants Ames and Bennet were roughly treated before being dragged from their rooms and shot. Similar methods were employed in the murder of Captain MacLean and two judiciary officers in his apartment.

"The streets of the city were immediately placed under a heavy patrol by the military, who restored order by firing their rifles in order to disperse the crowds.

"In one case three of the assassins captured two "Black and Tans" while they were on their way to reinforce the troops and killed them.

"Captain Fitzgerald, a military officer, was shot in his bed in Earlsfort Terrace.

"Captain Donald MacLean and a man named Smyth, the owner of a house, and another man named Caldwell were shot in a house in Donnybrook. Captain MacLean was killed instantly and Smyth died a few minutes later. Caldwell was badly wounded.

"The murder raids were carried out in broad daylight by parties about twenty in number. Except for the two victims in Gresham Hotel, in the heart of the city, the men were killed in their own homes."

With regard to the shooting at a

TAX SALE

Sale of lands in the Town of Macleod for arrears of taxes.

Notice is hereby given that certain Lands in the Town of Macleod will be offered for sale for arrears of taxes and Costs on the 22nd day of December, 1920, at the Town Hall in the said Town of Macleod, at the hour of 10 o'clock in the forenoon, unless the said arrears of Taxes and Costs, as shown, are sooner paid.

The full list of lands to be sold may be found in the issue of the Macleod Times, dated the 4th day of November, 1920.

Dated at Macleod the 27th day of October, 1920.

E. FORSTER BROWN,
Secretary-Treasurer.

NOTICE

NOTICE is hereby given that, in accordance with the provisions of The Irrigation Act, P. BURNS and COMPANY, LIMITED, have filed the necessary memorial and plans required by Sections 13 and 15 of the said Act, with the Commissioner of Irrigation at Calgary, Alberta.

The applicant company applies for the right to divert two hundred and six (206) acre-feet of water per annum from a lake fed by springs on the South-west quarter of Section 9, Township 9, Range 26, West of the Fourth Meridian, for irrigation purposes; and for the right to construct the necessary works as shown by the memorial and plans filed, to enable the water so diverted to be used for the said irrigation purposes, on the following lands, viz: The North-west, South-west and South-east quarters of said Section 9.

DATED at Calgary, Alta., this 8th day of November, 1920.
P. BURNS & COMPANY, LIMITED,
By W. E. CORLET,
Secretary,
Applicants.

football match in Croke Park later, on the same day, the "Montreal Daily Star" of the same date says that in the House of Commons, in reply to a question by Mr. Devlin, Sir Hamar Greenwood said:

"The authorities have reason to believe that Sinn Fein gunmen came to Dublin Sunday under the guise of attending the match in order to carry out the murders. Consequently a mixed force surrounded the grounds. This force was fired on, and in firing back killed 10 and wounded others."

In justice to the British Army these facts should be known as widely as possible.

Yours truly,

C. W. E. GARDINER

GOOD TIME AT ALLENFIELDS CHURCH

In spite of the heavy wind storm that was blowing there was a good turnout at Allenfields Schoolhouse on Sunday afternoon last, to hear the Hon. W. H. Cushing, of Calgary. Mr. Cushing is one of the leading laymen of the Methodist Church and is a member of the General Board of Missions which held its annual meeting a few weeks ago, and Mr. Cushing fresh from that meeting gave a very inspiring address.

On Monday the friends and congregation assembled for a social evening and the school was packed with a jolly crowd of young and old. The program consisted of a moving picture display by the Pastor Rev. W. H. Day, who brought his machine along, and a selection of minstrel numbers put on by a group of girls from the Macleod High School. Needless to say this part of the program was enjoyed immensely and a hearty invitation was extended to the girls to come again. At the close of the program a fierce onslaught was made upon the piles of cakes, cookies, etc., for which the Allenfields people are justly famous.

The proceedings closed by a vote of thanks proposed by the Allenfields folks to those who had contributed to the program, and by a similar vote proposed by the Macleod visitors for the generous reception given by the Allenfield folks and the meeting dispersed after the singing of "Old Lang Syne."

There were three car loads from Macleod and the party included, besides the high school pupils: Mr. C. B. Faulkner, Miss Dunning, Mr. Wilson Young and Mr. R. McLean.

NOTICE OF POUND SALE

The following animals will be sold for pound fees, by public auction, at the Stock-farm, Peigan Reserve, Brockton, Alberta, on December 7th, 1920 at 2 p.m.

1 aged pinto mare, branded O on right shoulder, 3 S on left shoulder.
1 brown mare, branded O on right shoulder.

1 sorrel mare, branded Lazy C U on right shoulder.

1 bay gelding, branded 7 L bar underneath on left thigh.

1 grey and 1 brown yearling fillies branded ER bar underneath on left thigh.

1 bay filly, no visible brand, left hind foot white, strip in face.
1 aged black gelding, branded F on left shoulder.

1 bay mare, branded triangle H connected and LA half diamond points up on left shoulder.

1 bay mare, branded triangle H connected and LA half diamond points up on left shoulder.

1 bay mare, branded triangle H connected and LA half diamond points up on left shoulder.

LOUIS BENNISON SELLS ROBBERS THEIR OWN LOOT

Selling a herd of stolen cattle to the very band of thieves that rustled them from nearby stock ranches is but one of the daring exploits of Louis Bennison while on a sleuthing expedition in his latest Betzwood production, "Speedy Meade," distributed by Goldwyn, which comes to the Empress Theatre, beginning Friday and Saturday.

Speedy Meade is dispatched to the border by the Government authorities to put a stop to the depredation on ranches after another Federal operative is killed in attempting to round up the band. Before he is on the scene a week Speedy gets a good line on his quarry. But Meade is recognized by some of the crooks as the man who rounded up the desperate Allen gang in the same section only a year before. So Meade decides to assume disguises.

Learning that the band makes its headquarters over a saloon, Speedy becomes a drunkard and a doer of odd jobs around the place and, most important of all, makes certain that he is assigned the job of delivering drinks to the crooks upstairs. While serving them Meade overhears their plans and is ready for the band's next move. It brings him to the home of Henry Dillman who, Speedy learns, is chief of the robber outfit. To Speedy's amazement he sees Mary Dillman on the lawn. Meade is held spellbound by the thought that the beautiful girl he has grown to love while she attended a convent school in his native town is probably a daughter or niece of the bandit leader.

But with Meade duty comes before love. That night he breaks into the crooks' stables and leads a herd of steers stolen from the Double Bar

ranch to a nearby shack. Fortunately the thieves haven't had time to obliterate the brand and burn their own mark in its place. In the morning Meade, disguised as an old ranch hand bring the herd back to the Dillman place, knowing Dillman or his partners in crime wouldn't dare claim the cattle as their own because of the brand.

Dillman immediately falls into the trap and offers to purchase the herd from the old man. Mead not only loot, but hears enough to give him the names of every one in the band. Emerging from Dillman's quarters after driving the hard bargain, Speedy sees one of the crooks dragging Mary in the road. Meade rushes to the rescue and fells her assailant with a blow to the jaw. As Mary thanks him Speedy removes all trace of his disguise and Mary is dumfounded to find that her hero is none other than her old sweetheart, Speedy Meade.

CHRIST CHURCH

MACLEOD HOCKEY CLUB RE-ORGANIZED FOR SEASON 1920-21

The meeting for the purpose of organizing the Macleod Hockey Club, which was held on Monday night in Geo. H. Scougall's office, was well attended, and from the number of old as well as new players who expect to turn out this season, Macleod will no doubt have a very strong aggregation.

The following officers were elected: Honorary President—Dr. S. J. Kirk.

Honorary Vice-President—Inspector J. A. Macdonald.

Honorary Vice-President—Dr. A. H. N. Kennedy.

President—Sergeant P. L. Healey.

Vice-President—Geo. H. Scougall.

Sec'y-Treas.—Mr. Neville Kirk.

It was decided that the Macleod Hockey Club should enter the Southern Alberta District Hockey League again this season and that Sergeant Healey should represent the Club at the League Meeting, which will no doubt be held in Lethbridge about the second week in December.

It was also decided that the Club should hold a series of dances and smokers for the purpose of raising funds for necessary expenses.

An entertainment committee composed of Sgt. Healey, Geo. H. Scougall and Corp. Anderson was elected to look after these entertainments.

Mr. E. Ringland attended the meeting and advised the Club that he was going to have a rink this season and would see that proper accommodation was arranged for the Hockey Boys.

Among the players who have signified their intention of turning out this season are the following:

Neville Kirk, Sgt. Healey, L. Levasseur, Geo. H. Scougall, F. Murphy, H. McCrea, N. Young, J. R. Purdie, A. Fritz, R. Reed, J. R. Duquay, H. Hammond, Cpl. Houghton, P. Byrne.

MACLEOD HIGH SCHOOL MONTHLY REPORT—NOVEMBER

The following is the November report of the Macleod High School. The number set after each student's name is the average of the percentages made by him or her on various tests set during the month of November.

Grade Nine:—Charles Faulkes, 82; Margaret Dougal, 77; Richard Armer, 76; Mary Mensaghi, 74; Billy Townsend, 72; Robert Warren, 70; Margaret Shield, 68; Orville Kirk, 66; Frank Lyons, 65; Bettie Watson, 63; Albert Webb, 59; Olive Lambert, 59; Emily Waterbury, 58; Annie McDonald, 57; Olive Young, 57; Arthur Warren, 56; Mabel McCrea, 56; Bettie Warren, 55; Marjorie Ringland, 53; Hester McLean, 53; Harold Milburn, 50; Nancy Robb, 47; Rea Adams, 42; Millie Gillespie, 39; Sydney Brooks, 38; Mary Connolly 35; Helen McDonald 26; Jimmie Thiel, 23.

Grade Ten:—William Watson, 77; Wilma Swinhart, 77; John Rothney, 72; Eileen Atkins, 69; Gladys McNab, 66; Frances Wall, 63; Ruth Gillespie, 55; Alice Beatty, 55; Nellie Drinkwater, 54; Strachan Roberts, 44; Mildred Brown, 40; Lucius O'Brien, 39; Arthur Little, 38; Frank Brewster, 35; Valentine Connolly, 15.

Grade Eleven:—Margaret McFadden, 88; Dorothy Day, 70; Lillian Hicks, 64; Annie Davis, 60; Mary Brewster, 60; Stasia Wall, 62; Alberta McCrea, 49; Lawrie Fraser, 41.

HOW HAIL-INSURANCE WORKS

Hail insurance is practically only a term in Eastern Canada, but in the West it signifies something of vivid importance. Measures known as Municipal Hail Insurance Acts are in force in each of the Prairie Provinces. These Acts provide a system of mutual insurance under which rural municipalities can operate to tax each other for the granting of compensation to individuals for losses incurred by hail, which are often very serious. How the system works out and the extent to which it operates in Saskatchewan and Alberta are set forth in the November number of The Agricultural Gazette of Canada.

Each claimant is entitled to receive not more than five cents per acre for every one per cent of damage from hail he has sustained. To some this may not appear a very liberal provision, but when it is understood that the number of claims filed in 1919 in Saskatchewan were 7,838 and that the total indemnity paid amounted to \$1,911,776 a different view will obtain. For one storm alone that occurred in July of the year referred to claims amounting to \$1,100,000 were satisfied. In Alberta the total losses for the same year were \$506,000 against a valuation of \$12,000,000 insured. Besides the system under Government supervision there are 36 companies in

Saskatchewan that accept hail insurance and that paid out \$1,750,000 in 1919 for losses caused by hail.

"THE FIGUREHEAD"

That popular young idol of the screen, Eugene O'Brien, comes to the Empress theatre next Wednesday and Thursday, in a new Selznick Picture, "The Figurehead," which shows him as an idling young man about town who is induced to accept a nomination for Mayor of his city, running against a saloon-keeper who controls the city politically.

What young Sherry Dows (Eugene

O'Brien) does not know is that his opponent picked him as a "figurehead" candidate who could be easily beaten, and forced his nomination upon the opposing party leaders, who in reality took orders from the saloon and dance-hall man.

Sherry regarded the entire affair as a lark, anyway, but fired by a love which lifts him out of his indifference, he conducts a remarkable campaign which gives the bosses some sleepless nights. They resort to all sorts of political stratagem to get him to withdraw from the race, and when he remains obdurate, they try to "frame

up" a scandal which will make it impossible for him to continue the campaign.

The erstwhile idler now shows some of the great qualities that have heretofore been latent in him. In a brutal, elemental fight, stripped of all the veneer covering avarice and intrigue, he hits out man-fashion and carries the day.

Four hundred actors were used in the filming of this spectacular picture. A splendid supporting cast includes Anna Q. Nilsson, Ora Carewe, Edwin Stevens, Joseph Girard, Frances Parks, and Kate Price. Robert Ellis directed the production.

ANNA NILSSON PLAYS WITH EUGENE O'BRIEN IN "THE FIGUREHEAD"

In Eugene O'Brien's new Selznick Picture, "The Figurehead," which will be shown for two days at the Empress theatre beginning Wednesday next, Anna Q. Nilsson plays the leading feminine role in support of Mr. O'Brien.

An explanation of Miss Nilsson's blonde beauty is to be found in the fact that she was born and spent her girlhood in the town of Ystad, Sweden. It is commonly known that the growing of blonde beauties is one of Sweden's foremost industries. Brought to America when she was still very young, Miss Nilsson's beauty soon attracted the attention of some of the foremost illustrators of the day. And before she entered pictures she enjoyed a brief and highly successful career as an artist's model.

She is justly proud of the fact that in her first picture she played the leading feminine role which, at that time, was considered something very unusual, and a most auspicious entry into the ranks of picture players.

A CALL

Thoughtful people of nearly every class are looking over world conditions and the conclusions reached are not the most optimistic.

Frederic Harrison, a prominent English writer and publicist and an eminent thinker, recently said: "The world has changed. The war has changed everything and in the end has ruined much of good and promise. The churches have not yet shown any power to restore religion to its true place as a guide of human life. The boom in education has not brought any nobler literature, any greater art, any purer drama, any finer manners."

Dr. Stuart Holden, a noted British divine, speaking recently in New York said: "The war instead of being a purifying influence on the world, has left economic and moral conditions in a worse state than before."

Of course there is the possibility of confusing cause and effect. That

is, in placing the cause of present day conditions on the war, when as it is quite probable the war was the effect of certain low materialistic ideals that had gripped a large portion of humanity and it was only one phase of the harvest of these ideals. Most horrid it is true. And while we thank God we were not responsible for that horrid outbreak yet, the aims that drove others were fast becoming our own.

Materialistic aims are always dangerous whether in a nation, a community or an individual, and they do not always manifest themselves along exactly the same lines.

There were other nations than Germany that were just as materialistic, but they had no thought of world domination, but were just as far from morality and spiritual aims. And their condition could bring but one result. The words of the world's great spiritual guide, the Bible—"If ye live after the flesh ye shall die"—are

just as true as those other words more frequently quoted—"What shall it profit a man if he shall gain the whole world, and lose his own soul." Or still another great truth we seem to lose sight of: "The things that are seen are temporal, the things that are not seen are eternal." Certainly the great forces around us were driving us in pursuit of the "seen", the "temporal" until today there is a general admission from thoughtful magistrates, teachers, writers, and public men, that the world outlook is dark.

The remedy is simple if it could only be applied, viz.: to serve other Gods. To throw aside the false and enshrine the true.

The church is receiving her criticism, and some of it is deserved. Many of her aims were unworthy of her aims were unworthy of her head. But on the other hand, she was often like a voice crying in the wilderness, or like a whisper in the babel of many voices. There were so many voices opposed to her.

While the church was holding up the Bible, the people were lending listening ears to myriads of voices and really getting their life's aims from other sources.

The magazines, so widely read today, contain little that uplifts—their basis is commercial.

The newspapers are leaders of thought, but when do they lead?

Our educational system has reached the point where the moral and spiritual are minus quantities and how could it be otherwise when those who sit in her high places are a part of our shameful political system.

We are readers to day—but readers of what? How much of it is lurid and insidious fiction.

All the Sunday schools in Canada cannot offset in the children the depraving influence of the picture show that has become as much a weekly event in the children's life as the Sunday School. One could not help thinking while watching the filming for the pictures for the screening of "Corporal Cameron" in our midst last week how unfit it all was for the feeding of child mind. Indians, shooting, train robbing, looting, murder, seduction! What a unhealthy atmosphere to throw around children! Yet unquestionably the Canadian children are getting more of that influence than any other.

A child is abused to-day if deprived of this "delightful" training at least once a week. The mother of a family says in the hearing of her children, "I must get a good book for the week-end." Of course that means, while she may to church Sunday evening, all the day long she will feed her soul on unreality and by every law of nature her children will follow in her steps.

But we are not thinking of England, Germany or Russia—MacLeod is on our mind. The best people of MacLeod are not satisfied with the outlook of our people. Some freely and outspokenly assert that they will not bring up their family here, and intend to move away. Others, who are able at all, send their children away to escape the environment, whether

rightly or wrongly, still it is a fact. And they have the sanction for this policy in many moral leaders, who do not hesitate to say there are towns where they would not bring up a family on account of the atmosphere.

Still, that remedy keeps the few and leaves the many to their fate, for circumstances prevent the many from that course.

What then is the remedy?

Laying aside any comparative conditions of our community, what is the plain duty of every citizen?

Undoubtedly to give energy to the spiritual force in our midst, and do everything in our power to make it hard to do wrong and easy to do right. And to a large extent this force must be within us.

We must change our Gods—turn a deaf ear to many false leaders. We must change the Sabbath day from a day to recover from the dissipation of Saturday night or a day of useless lounging to a day of real culture.

We must make religion a real spiritual force within us. Not an occasional occupying a seat in a church to ease our conscience.

Religion must become a delightful determination to do right. It must "incline our hearts to keep Thy laws." If we are to see better days we must learn to follow that which is good. The voice of evangelism must find in us listening ears.

To sum it all up—The long neglected Christ must become our master and guide.

REV. W. A. LEWIS.

ARDENVILLE NEWS

T. Bailey spent a few days in Calgary last week attending the U.F.A. Convention.

W. Driver returned on Saturday after spending a few days in Lethbridge.

The dance held in the school house on Friday evening last was a brilliant success. The floor was in excellent condition and the management in very capable hands, and the music which was furnished by Messrs. Ford and Russel, was, from the applause received, the best ever listened to in this school house.

We hope there will be many more such dances during the winter.

The U.F.A. and U.F.W.A. are having a card party and social evening in the school house Friday evening Dec. 3rd, 1920.

The rural telephone is nearing completion and we hope to see the boxes installed inside of a week.

T. Chester left last week for Ontario, where he will spend the winter.

Miss Clarice Britton returned home on Friday evening last from Kelowna, B.C., where she has spent nearly two years.

REACH & CO. Cash or Trade

We are going to spring a surprise to many. The past three years have been very bad for us and last year showed a heavy loss, our collections have been Nil. A great proportion put off paying their bills till a more convenient day. The consequence is that they are worse off than before, and owe more.

We think the only solution is to sell out and in the meantime do a cash business. Parties with a monthly account will pay up promptly on the first of next month, with three days grace.

Farmers accounts should be met by produce: Butter, Eggs, Poultry and Vegetables. It is a mistake in this country to depend upon wheat or any other grain to pay their yearly bills. It is a gambling proposition, they have to take chances on drought, hail, wind, drifting soil, cut worms and weeds, including the Russian thistle. Without irrigation there is no certainty of a crop, otherwise it is not suitable for mixed farming, the rainfall is too uncertain.

We are at the end of our financial tether and to continue giving further credit is simply suicidal. The Hudson's Bay Co. have sold out, we can't take advantage of their doing so by putting in a larger stock. We have no money or credit owing to the apathy and in many cases the dishonest indifference of others who owe us. Our conscience is clear in our past dealings with you, ask yourselves if yours is equally so.

GREAT REMNANT & RUMMAGE WEEK

Come early and get first Pick of these great Bargains. Prices that make a joke of old H.C.L.

SATURDAY, DEC. the 4th to SATURDAY, DEC. the 11th

This will be one of the most popular events in connection with this record-breaking sale, now drawing rapidly to an end. Hundreds upon hundreds of remnants and oddments of all descriptions thrown out on the slaughter piles. We realize that after the immense selling of the past month our stocks are broken up to an extent that demands further sacrifice and still greater loss on our part in order to effect a complete clearance. But we do not hesitate, in fact we have no choice, our principals have instructed us to make a clean sweep of the entire stock and with all possible speed. We believe this great remnant and rummage sale, commencing Saturday morning December 4th, will go a long way to accomplish our object. So come early and avoid disappointment.

REMNANTS AND RUMMAGE IN DRY GOODS DEPT. HALF PRE-SALE PRICE
